To Whom It May Concern:

Google is pleased to inform you that Abhijeet Sharma has successfully completed Google Summer of Code 2018, a program which connects students with mentors for 3 months to develop open source software. Each year many students apply to participate with only a portion of them being accepted into the program, and not every student finishes the program successfully.

Abhijeet was accepted into the program by, and developed open source software for, KDE Community beginning May 14, 2018 and ending on August 6, 2018. Over that period, they passed each of the three evaluations conducted by their mentor.

More information on Abhijeet's project can be found at:
<https://summerofcode.withgoogle.com/projects/5140246090481664>

Abhijeet worked from home on their project and was not required to visit either Google or KDE Community's offices. They received a stipend of 2400 USD for the project. Although Abhijeet was not directly employed by Google during Google Summer of Code 2018, the program was administered by Google from our corporate headquarters and Google acted as the host organization for the duration of Abhijeet's participation.

You can learn more about the program on our website at g.co/gsoc. Should you require any further information, please do not hesitate to contact our team via email at gsoc-support@google.com.

Best,

Joshua Simmons
Google Summer of Code Program Manager
